

Colestin Rural Fire District

UPDATER

April 22, 2021

The ever-present possibility of catastrophic wildfire really brings home the importance of improving our readiness in case of emergency.

Our all-volunteer emergency preparedness group consists of:

- Public Information Officer (PIO) with a dedicated phone 541-880-8350
- A social media team to get the word out on the CRFD website, Facebook, and Twitter
- 13 Neighborhood Blocks each with 2 co-leaders connected by a phone tree

In the event of a major emergency requiring immediate action (such as evacuation), the Public Information Officer (PIO) will send an Alert Text to every resident participating in our emergency preparedness phone tree. The Alert will describe What Where Who How When about the emergency. Example: "A wildfire started on 15 is moving westward and southward into the valley near Goat Ranch Rd. All residents from Goat Ranch Rd south must evacuate immediately to the south. This is a #3 GO evacuation. Residents to the north are in evacuation level #2 BE SET (TO GO)."

Whether an urgent emergency or more slowly evolving emergency (such as earthquake response), as soon as possible after you receive the Alert Text, please contact your Neighborhood Leader/s with your status. Example: "Judith and Douglas Smith evacuating" or "Judith Smith sheltering in place, minor injuries." In all cases, if you are injured or trapped or need assistance call 9-1-1 first, then contact your Neighborhood Leader/s.

This fire season we plan to conduct regular tests of the Emergency Alert Text system.
